## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group I, claims 1-13 and 17-24 in the reply filed on 06/30/2006 is acknowledged. The traversal is on the ground(s) that there is no additional burden on the Examiner. This is not found persuasive because the searches required for the non-elected inventions are not required for elected group I.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 14-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-6, 8, 11 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1713

5. Regarding claims 2, 4, 6, 8, the term "preferably" renders the claims indefinite because it is unclear whether the limitations following the terms are actually part of the claimed invention. See MPEP § 2173.05(d).

6. Regarding claims 3 and 5, there are no bases stated for the recited amounts (%) by weight. Are these based on the weight of the dispersion, the weight of the polymer, or the weight of the solids in the dispersion?

7. Claims 11 and 21 recite the limitation "the total amount of polyvinyl alcohol in the dispersion" in claim 1. There is insufficient antecedent basis for this limitation in the claim. There is no polyvinyl alcohol recited in parent claim 1.

### ***Claim Rejections - 35 USC § 102***

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

9. Claims 1-13 and 17-24 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Jakob et al. (US 2005/0107515).

Art Unit: 1713

In ¶'s 25-32, Jakob et al. teach a food-coating composition composing an aqueous copolymer polyvinyl ester dispersion which comprises

A) 100 parts by weight of a copolymer of

from 40 to 95% by weight of vinyl esters of aliphatic saturated carboxylic acids,

from 5 to 60% by weight of maleic esters and/or fumaric esters of monohydric aliphatic alcohols having a chain length of C1-C18, and optionally other comonomers,

B) from 0.1 to 1.0 parts by weight of an emulsifier,

C) from 1 to 12 parts of as poly(vinyl alcohol), wherein, preferably, no other stabilizer, such as a cellulose ester, is present (¶ 45).

Thus, the requirements for rejection under 35 U.S.C. 102(e) are fully met.
